

## CONSTRUCTION NOTIFICATION

Washington Gas Project: Prince George's County and District of Columbia Reliability & Reinforcement Project

PHASE 3: UPPER MARLBORO, MD 20772 and 20774

Project Reference Number: SPID12-P3

- As of October 5, 2021 -

Dear Neighbor,

At Washington Gas, we work every day to safely and reliably meet the energy needs of our customers. Today, natural gas is the fuel of choice for more than nine out of ten new homebuyers in the Washington, D.C., metropolitan area, and Washington Gas serves more than 1.2 million customers through the region. As our region continues to grow, expansion and rehabilitation of our existing infrastructure is critical to maintaining our natural gas distribution system.

As part of the Prince George's County and District of Columbia Reliability and Reinforcement Project (PGDCRRP), Washington Gas will soon be performing work in your area. This work will not affect the natural gas service to homes or businesses.

### Construction Overview – Phase 3

For this phase of the project, construction area preparation is underway within primarily private property easements extending from north of Flying Change Court in the Marlboro Ridge Community to White House Road near the intersection of Harry S. Truman Drive in Upper Marlboro, Maryland. Phase 3 construction activities are anticipated to be complete in December 2021. Restoration will continue into 2022. Work hours are Monday through Saturday, 7:00 a.m. to 7:00 p.m. Construction schedules may be affected by weather and other unforeseen circumstances.

### What Can I Expect During Construction?

If you live near the construction area, you may hear construction noise during work hours, and you can expect to see Washington Gas and contractor vehicles and equipment. For your safety and the safety of construction personnel, do not cross construction barriers, enter construction areas, or approach vehicles or equipment.

Washington Gas makes every reasonable effort to minimize disturbance in your community. If you have questions or need additional information about this project, please visit <http://pgcdcrpp.com> or contact the project team at [pgcdcrpp@washgas.com](mailto:pgcdcrpp@washgas.com) or 703-750-5222. **Project reference number: SPID12-P3**

Thank you for your patience as our construction crews complete this important work in your community.

Theresa Avila Curtis, Project Manager, Corporate Engineering, Washington Gas

### About the PGDCRRP Project

Washington Gas is constructing new infrastructure in Prince George's County and the entire region.

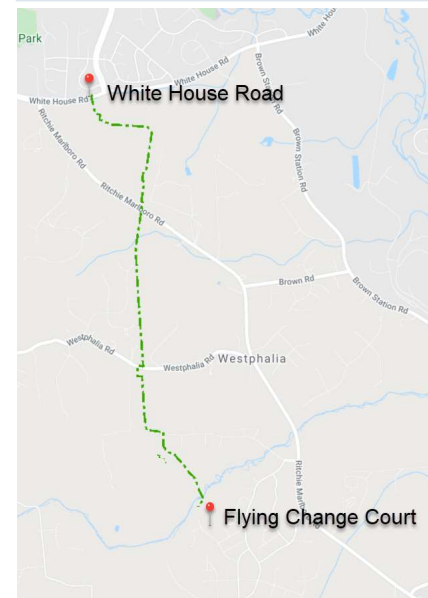

Built mostly in public and electric utility corridors, the project paves the way for economic growth and serving more residents with clean, affordable natural gas service.

The investment will include approximately 16 miles of coated steel, natural gas pipeline and regulating stations connecting two portions of Washington Gas' existing system.
