

## CONSTRUCTION NOTIFICATION

Washington Gas Project: Prince George's County and District of Columbia Reliability & Reinforcement Project

PHASE 5: LARGO, MD 20774

Project Reference Number: SPID12-P5

- As of October 22, 2021 -

Dear Neighbor,

At Washington Gas, we work every day to safely and reliably meet the energy needs of our customers. Today, natural gas is the fuel of choice for more than nine out of ten new homebuyers in the Washington, D.C., metropolitan area, and Washington Gas serves more than 1.2 million customers through the region. As our region continues to grow, expansion and rehabilitation of our existing infrastructure is critical to maintaining our natural gas distribution system. As part of the Prince George's County and District of Columbia Reliability and Reinforcement Project (PGDCRRP), Washington Gas will soon be performing work in your area. This work will not affect the natural gas service to homes or businesses.

### Construction Overview – Phase 5

This phase of the project extends from Harry S. Truman Drive just north of New Orchard Drive, through Southwest Branch Valley Stream Park, and through private property easements to the intersection of Largo Drive West & Lottsford Road just north of Central Avenue (MD-214). For this phase of the project, construction area preparation is underway and construction activities are anticipated to be complete in Spring 2022 followed by restorations. Work will typically occur Monday through Saturday, 7:00 a.m. to 7:00 p.m. Construction schedules may be affected by weather and other unforeseen circumstances. All work will be completed in accordance with permits.

### What Can I Expect During Construction?

Please follow traffic control signs on Harry S. Truman Drive and the ramp from 495 to Central Avenue for lane closure information. If you live near the construction area, you may hear construction noise during work hours, and you can expect to see Washington Gas and contractor vehicles and equipment. For your safety and the safety of construction personnel, do not cross construction barriers, enter construction areas, or approach vehicles or equipment.

We strive to make every reasonable effort to minimize disturbance in your community. If you have questions or need additional information about this project, please visit <http://pgdcrrp.com> or contact the project team at [pgdcrrp@washgas.com](mailto:pgdcrrp@washgas.com) or 703-750-5222. **Project reference number: SPID12-P5.** Thank you for your patience as our construction crews complete this important work in your community.

Theresa Avila Curtis, Project Manager, Corporate Engineering  
Washington Gas

### About the PGDCRRP Project

Washington Gas is constructing new infrastructure in Prince George's County and the entire region.

Built mostly in public and electric utility corridors, the project paves the way for economic growth and serving more residents with clean, affordable natural gas service.

The investment will include approximately 16 miles of coated steel, natural gas pipeline and regulating stations connecting two portions of Washington Gas' existing system.
